DAVID TINASHE MUTISWA

PROJECT MANAGER | TECHNOLOGY DELIVERY | PMO GOVERNANCE

0771 443 173 | mutiswadavid@gmail.com | Harare, Zimbabwe

PROFESSIONAL PROFILE

Project Manager and Delivery Lead with 6+ years of progressive experience and 15+ technology projects delivered across Zimbabwe and Tanzania. Progressed from Project Trainee to Head of PMO and Delivery Lead, with responsibility for centralised portfolio governance, remote and augmented teams, client advisory, resource allocation and end-to-end delivery. PRINCE2 Foundation and PSM I.

DELIVERY SCALE

15+	7	50+	15	10+
Projects delivered	Concurrent projects	Resources allocated	Largest team led	Clients supported

CORE EXPERTISE

Centralised Project Governance | Agile and Hybrid Delivery | Remote and Regional Delivery | Staff Augmentation | Portfolio Prioritisation | Delivery Onboarding | Resource and Capacity Allocation | Client Delivery Advisory | Risk and Dependency Control | UAT and Release Management | Budget and Cost Control | Commercial Delivery Oversight

PROFESSIONAL EXPERIENCE

AFROSOFT HOLDINGS LIMITED (AHL) | Zimbabwe and Tanzania | February 2020 - Present

Delivery Lead (2026 - Present) | Head of PMO (2024 - 2025) | Project Coordinator / Lead Scrum Master (2022 - 2023) | Project Trainee (2020 - 2021)

- Serve on MANCO, contributing delivery insight to initiative prioritisation, organisational planning and management decision-making.
- Oversee up to seven concurrent projects and allocate 50+ resources across delivery, support, infrastructure and DevOps priorities while balancing capacity, cost and commercial commitments.
- Lead multidisciplinary consulting teams of up to 15 across Business Analysis, QA, Development, Cybersecurity and UI/UX, from interns to senior specialists.
- Identify internal and client products due for upgrade, assess delivery readiness and onboard approved initiatives with clear scope, ownership, resources and governance.
- Support project budget planning, cost tracking and commercial delivery control, assessing scope changes and resource impacts for management and client decisions.
- Guide clients on delivery optimisation and direct end to end delivery through planning, UAT, security remediation, deployment, sign-off, handover and continuous support.
- Improve portfolio visibility and early escalation through RAID controls, project health dashboards, governance forums and executive reporting.

DELIVERY OUTCOMES

- Delivered completed client solutions through production release, formal sign-off, operational handover and transition into continuous support.

EDUCATION AND CERTIFICATIONS

Bachelor of Commerce in Business Management and Information Technology | Catholic University of Zimbabwe | 2026 - 2029 | In progress
PRINCE2 Foundation - AXELOS 2022 | Professional Scrum Master I - Scrum.org 2021 |

SELECTED PROJECT MANAGEMENT PORTFOLIO

A selected view of project management assignments demonstrating delivery governance, remote-team leadership, staff augmentation and production transition.

Old Mutual Zimbabwe - MDM Platform and ETL Delivery

Lead active staff-augmentation delivery for technical resources embedded in the client environment. Coordinate milestones, resource allocation, dependencies, testing and governance while guiding client stakeholders on delivery optimisation.

CRDB Bank and TISEZA Tanzania - Investor Onboarding Platform | Deployed and handed over

Led remote cross-border delivery with Business Analysis, QA, Development, Cybersecurity and UI/UX capabilities. Coordinated integrations, multiple UAT cycles, security remediation, acceptance and full operational handover, including the solution codebase.

Public Service Commission Zimbabwe - Biometric Authentication System | Signed off and supported

Oversaw delivery of the biometric authentication solution and API, including deployment of 210 fingerprint readers, documentation, training, production transition and close-out.

Zimbabwe Defence Forces Benefit Fund - Loans and Financial Management System | Signed off and supported

Directed delivery of loans and projects modules, financial reports, data take-on, UAT, production deployment, training, client sign-off and handover.

Delta Corporation - Zambezi eStore Development, Migration and Upgrade | Signed off and supported

Coordinated platform development ,migration and upgrade delivery covering hosting, payment-gateway improvements, DHL integration, UAT, deployment, handover and continuous support.

NRZ Contributory Pension Fund - Integrated Digital Services | Signed off and supported

Led delivery of biometric life certification, survey, voting, help desk, stakeholder communication, chatbot, mobile application and member self-service capabilities through production handover and ongoing support.

Additional Selected Delivery | Production delivered

Delivered - Cassava Maisha Health Fund (Scrum Master), BTAL InstaliPa payment gateway and Zimplats mobile/SAP ERP integration.
Staff augmentation - Northern Tobacco, NBS, Stanbic and Cicada - coordinating resources, governance, reporting and client delivery.
