PROFESSIONAL SUMMARY

- Agile Delivery Lead | Project Manager with expertise in Agile transformation, portfolio management, and cross-functional team leadership. Skilled in optimizing project delivery pipelines, driving stakeholder alignment, and ensuring on-time, on-budget project execution. Adept at improving team performance through data-driven decision-making and Agile best practices.

OBJECTIVE

Results-driven Agile Delivery Lead / Project Execution & Governance Specialist with a strong focus on quality, client satisfaction, stakeholder alignment, and high-performance delivery. Committed to driving efficiency, optimizing Agile frameworks, and delivering measurable, high-quality results through strategic execution and continuous improvement.

SECONDARY AND HIGH SCHOOL

Education

A-Level | Seke 1 High School

Economics

Business Studies

O-Level | Mutendi High School

History, Commerce, English Literature, English Language, Mathematics, Geography

CERTIFICATIONS.

2022
- **Projects In Controlled Environments (PRINCE2)**
  Axelos

2021
- **Professional Scrum Master 1 (PSM1)**
  Scrum.Org

EXPERIENCE

09/16/24 -

- **Head of Project Management Office**
  Break Through Technologies Africa (BTAL)
  1. Established and led the PMO, defining project governance, best practices, and delivery frameworks for software development teams.

  2. Fostered Agile maturity by implementing and scaling Agile frameworks (Scrum, SAFe, Kanban) across the organization.

  3. Developed and enforced Agile best practices, ensuring teams adhere to Agile principles for improved efficiency and collaboration.

  4. Oversaw multiple software development projects, ensuring alignment with business goals, resource allocation, and risk management.

  5. Trained and mentored Scrum Masters, Product Owners, and Project Managers, driving Agile adoption and continuous improvement.

  6. Led Agile transformation initiatives, optimizing delivery pipelines and improving time-to-market for software solutions.

  7. Monitored key performance indicators (KPIs), such as sprint velocity, cycle time, and project ROI, ensuring data-driven decision-making.

  8. Facilitated executive-level Agile reporting, ensuring transparency and alignment with strategic business objectives.

01/02/23 - 01/02/24

- **Lead Agile Scrum Master and Project Manager**
  Breakthrough Technologies Africa
  1. Facilitated Scrum ceremonies (daily stand-ups, sprint planning, retrospectives) to enhance team collaboration and productivity.

  2. Managed project timelines, budgets, and risks, ensuring on-time and within-budget delivery.

  3. Optimized Agile workflows using JIRA, Confluence, or Azure DevOps, improving transparency and tracking.

  4. Coordinated with stakeholders, developers, and product owners to align project goals with business objectives.

  5. Mentored and coached teams on Agile best practices, increasing efficiency and team ownership.

  6. Implemented process improvements, reducing development cycle times and enhancing project success rates.

  7. Tracked key performance metrics (KPIs), ensuring continuous improvement in team velocity and delivery.

01/02/22 - 01/02/23

- **Projects Cordinator**
  Afrosoft Holdings
  1. Assisted in planning, scheduling, and tracking software development projects.

  2. Coordinated Agile/Scrum ceremonies (stand-ups, sprint planning, retrospectives).

  3. Managed and updated JIRA, Trello, or Azure DevOps for backlog tracking and task assignments.

  4. Acted as a bridge between developers, testers, product owners, and stakeholders to ensure project alignment.

  5. Monitored project timelines, risks, and dependencies, ensuring smooth execution.

  6. Prepared and maintained project documentation, reports, and meeting minutes.

  7. Facilitated communication to ensure timely issue resolution and requirement clarification.

01/02/21 - 01/02/22

- **Project Support Officer**
  Afrosoft Holdings
  1. Assisted project managers in planning, scheduling, and monitoring project progress.

  2. Maintained project documentation, reports, and meeting minutes.

  3. Tracked tasks and milestones using JIRA.

  4. Coordinated communication between teams, stakeholders, and external vendors.

  5. Monitored project risks and supported mitigation efforts.

  6. Managed administrative tasks, including budget tracking and resource allocation.

01/02/20 - 01/02/21

- **Project Trainee**
  AFROSOFT HOLDINGS

  1. Assisted in project planning, risk management, and stakeholder coordination.

  2. Gained hands-on experience in Agile (Scrum, Kanban) and SDLC.

  3. Managed JIRA boards, tracked tasks, and supported backlog prioritization.

  4. Participated in sprint planning, stand-ups, and retrospectives.

  5. Assisted in documentation, reporting, and process improvements.

PROJECTS

- **Public Service Commission (PSC) Biometric Proof Life Authentication.**
  Led the implementation of a biometric authentication system to enhance pensioner verification, eliminate fraud, and streamline payroll management for the PSC.

  Key Contributions:

  Project Planning & Execution – Defined scope, milestones, and success criteria, ensuring stakeholder alignment.

  Agile Development – Managed sprints, backlog, and team collaboration using JIRA & Confluence.

  System Integration – Led the deployment of fingerprint & for secure authentication.

  Testing & Deployment – Conducted UAT, pilot rollouts, and nationwide implementation with minimal disruption.

  Risk & Compliance Management – Ensured data security, scalability, and regulatory compliance.

  Impact:
  ✅ Eliminated pension fraud, reducing financial losses.
  ✅ Improved verification speed, cutting processing time from weeks to real-time.
  ✅ Enhanced data security and nationwide accessibility.

  Technologies: Biometric APIs | JIRA | Confluence | Gnatt Tool|

- **Tanzania Investor Onboarding Platform**
  Spear Headed the development of a digital platform to streamline investor registration,

approvals, and compliance, enhancing efficiency and transparency.

Key Contributions:

Managed Agile execution, stakeholder alignment, and system integration.

Implemented KYC verification, digital submissions, and automated approvals.

Ensured regulatory compliance and data security.

Facilitated user training and adoption for seamless onboarding.

Impact:
✅ Accelerated investor registration & approvals.
✅ Enhanced compliance & transparency.
✅ Boosted FDI by simplifying onboarding.

Technologies: KYC APIs | JIRA | Confluence | Gnatt Tool.

- **Maisha Health Fund**
  Led the Agile transformation and delivery of Maisha Health Fund, a digital healthcare funding platform designed to enhance healthcare accessibility, claims processing, and member management.

  Key Contributions:

  Agile Leadership – Facilitated Scrum ceremonies, backlog prioritization, and sprint execution, ensuring smooth collaboration across teams.

  Cross-Functional Coordination – Aligned developers, product owners, and stakeholders to optimize feature delivery.

  Process Optimization – Implemented Agile best practices, improving team velocity and product quality.

  Risk & Compliance Management – Ensured adherence to healthcare regulations while integrating secure payment and claims processing systems.

  Training & Adoption – Coached teams on Agile methodologies, fostering a culture of continuous improvement.

  Impact:
  ✅ Accelerated product delivery, reducing time-to-market.
  ✅ Enhanced claims processing efficiency & user experience.
  ✅ Improved Agile adoption, boosting team productivity.

  Technologies: JIRA | Confluence | Secure Payment APIs.

- **Zambezi Estore**
  Zambezi eStore – Digital Marketplace Implementation

Overview: Led the Agile delivery of Zambezi eStore, an e-commerce platform designed to enhance online retail, digital payments, and customer experience for buyers and sellers.

Key Contributions:

Agile Execution – Managed Scrum ceremonies, sprint planning, and backlog prioritization to ensure timely feature delivery.

Platform Development – Oversaw the integration of secure payment gateways, inventory management, and order tracking.

Stakeholder Collaboration – Coordinated efforts between developers, UX designers, and business teams to optimize user experience.

Performance Optimization – Ensured scalability, security, and seamless transactions for high-volume traffic.

Training & Support – Facilitated onboarding for vendors, ensuring smooth adoption of the platform.

Impact:
✅ Improved online shopping experience with faster transactions and secure payments.
✅ Increased vendor participation, driving sales growth.
✅ Enhanced platform performance through optimized Agile workflows.

Technologies: JIRA | Confluence | Payment APIs | Inventory Management Systems.

- **National Railways Contributory Pension Fund (NRZCPF) Integrated sytems**
  As Lead Agile Scrum Master & Project Manager, I led the design, development, and integration of multiple systems, ensuring seamless functionality, security, and user adoption.

  Key Contributions:

  Agile Execution – Managed Scrum ceremonies, sprints, and backlog refinement for efficient delivery.

  System Integration – Ensured interoperability, security, and scalability across platforms.

  User Experience & Adoption – Facilitated training, onboarding, and stakeholder engagement.

  Risk & Compliance – Ensured data security and regulatory compliance.

  Implemented Systems & Impact:

  1️⃣ Biometric Life Certification – Integrated fingerprint & facial recognition to eliminate fraud and automate verification.

  2️⃣ Voting & Survey Platform – Enabled secure digital voting and real-time survey analytics.

  3️⃣ IT Help Desk – Automated ticketing & issue resolution, improving support efficiency.

  4️⃣ Member Self-Help Platform – Provided a self-service portal, reducing reliance on support

teams.

5️⃣ Stakeholder Communication Platform – Centralized messaging, announcements, and collaboration.

6️⃣ Mobile App & Chatbot – Delivered AI-powered, 24/7 automated support & mobile accessibility.

Overall Impact:

✅ Streamlined operations through automation and digital transformation.
✅ Increased user engagement & efficiency with self-service and AI-driven tools.
✅ Enhanced security & compliance using biometrics and secure authentication.

- **Zimplats Mobile Application and SAP**
  Led the Agile implementation and integration of the Zimplats Mobile App and SAP system, enhancing operational efficiency, workforce management, and real-time data accessibility.

  Key Contributions:

  Agile Execution – Managed sprint planning, backlog refinement, and Scrum ceremonies to ensure smooth deployment.

  Mobile App Development – Oversaw the design and rollout of the Zimplats mobile app for improved employee self-service, reporting, and operations tracking.

  SAP Integration – Ensured seamless connection between the mobile app and SAP ERP, enabling real-time data synchronization for HR, finance, and asset management.

  Stakeholder Engagement – Collaborated with business units, IT teams, and SAP specialists to align system capabilities with organizational needs.

  User Training & Support – Conducted onboarding sessions, ensuring smooth adoption across employees and management.

  Impact:

  ✅ Optimized workforce management through mobile SAP access.
  ✅ Improved real-time reporting & decision-making.
  ✅ Enhanced user experience & operational efficiency.

  Technologies Used: SAP ERP | Mobile APIs | JIRA | Confluence |

- **Payment Gateway Implementation For Zimbabwe and Tanzania**
  Led the design, integration, and deployment of a secure payment gateway for Zimbabwe and Tanzania, enabling seamless digital transactions, multi-currency support, and financial

compliance.

Key Contributions:

Agile Execution – Managed sprints, backlog prioritization, and cross-functional collaboration for smooth rollout.

System Integration – Implemented secure payment APIs, ensuring compatibility with local banks and mobile money services (Ecocash, Telecash,One money Tigo Pesa, M-Pesa , Vodacom ,Airtel).

Compliance & Security – Ensured adherence to PCI-DSS standards, AML regulations, and local financial policies.

Multi-Currency Support – Enabled transactions in USD, ZWL, TZS, enhancing financial accessibility.

Merchant & User Adoption – Facilitated training and onboarding for businesses, financial institutions, and end-users.

Impact:

✅ Enabled real-time, cross-border digital payments.
✅ Increased transaction security & regulatory compliance.
✅ Expanded digital financial inclusion for businesses and consumers.

Technologies Used: Secure Payment APIs | JIRA | Confluence | Mobile Money & Banking Integrations |

- **Zimbabwe Defence Forces Benefit Fund (ZDFBF) Loans And Finance Manager**
  Led the Agile implementation and integration of the ZDFBF Loans & Finance Manager, a digital system designed to streamline loan processing, fund management, and financial reporting for military personnel.

  Key Contributions:

  Agile Execution – Managed Scrum ceremonies, backlog prioritization, and sprint planning for efficient delivery.

  Loan Management System Integration – Oversaw the automation of loan applications, approvals, disbursements, and repayments.

  Financial Compliance & Security – Ensured data security, auditability, and compliance with financial regulations.

  Stakeholder Collaboration – Worked with finance teams, IT, and military leadership to align system functionality with operational needs.

  Training & User Adoption – Facilitated onboarding and training for finance officers and end-users.

Impact:

✅ Reduced loan processing time through automation.
✅ Enhanced financial transparency & reporting.
✅ Improved fund management efficiency & security.

Technologies Used: JIRA | Confluence | Secure Payment APIs | Cloud-Based Financial Systems.
